SIDE EVENT (17/02/20, MON)

- A Call for Global Species Conservation Action in the post-2020 Global Biodiversity Framework
- Bridging Information of Wetlands and Waterbirds -Wetlands International-GIZ

ORGANIZERS

- IUCN
- Wetlands International South Asia Office

SLOT

- 12:45-13:50
- 15:45-14:50

ROOM

- 1
- 1

SIDE EVENT (18/02/20, TUE)

- Generating Actionable Knowledge for the Effective Protection of Marine Migratory Species
- Safeguarding connectivity: from bird data to management tools
- Beyond Ecological Connectivity: Building a Network of Sites, People and Institutions
- Reducing impacts of poison on migratory birds from agricultural chemicals and poison baits
- The Road Ahead: Toyota and the IUCN Red List of Threatened Species towards the post-2020 Global Biodiversity Framework
- Climate Change Adaptation: How can migratory species survive?

ORGANIZERS

- BirdLife International
- Wetlands International, BirdLife International
- ICF, IUCN WCPA CCSG
- ICF
- IUCN
- CMS

SLOT

- 12:45-13:50
- 12:45-13:50
- 13:45-14:30
- 18:15-19:00
- 18:15-19:00
- 18:15-19:00

ROOM

SIDE EVENT (19/02/20, WED)

- Conservation of the Black-necked Crane :current status and possible courses of action
- Migratory species and ecological connectivity opportunities for cross-boundary collaboration through the emerging UN Ocean Treaty
- Towards eradication of illegal killing, taking and trade of wild birds
- Connecting Wetlands and Migratory Species: Connectivity and the post-2020 Global Biodiversity Framework
- India and the Arctic Migratory Birds Initiative (AMBI), for the Conservation of Threatened Arctic Breeding Shorebirds Wintering in India

ORGANIZERS

- ICF, BirdLife International
- WWF International, BirdLife International
- CMS, AMBI/CAFF, BirdLife International
- Ramsar, CMS
- AMBI/CAFF

SLOT

- 12:45-13:50
- 12:45-13:50
- 13:45-14:30
- 18:15-19:00
- 18:15-19:00

ROOM

- 2
- 4
- 1
- 5
- 5

SIDE EVENT (20/02/20, THU)

- Connected energy solutions for a connected world: rapidly reconciling renewable energy investment with biodiversity conservation
- Addressing the Impact of Linear Infrastructure on Migratory Species
- Using sensitivity mapping to avoid conflict between birds and renewable energy infrastructure in India and Asia

ORGANIZERS

- BirdLife International
- CMS
- BirdLife International

SLOT

- 12:45-13:50
- 13:45-14:30
- 18:15-19:00
