

World Migratory Bird Day (WMBD) Small Grant 2023 Application Form

WMBD Small Grant 2023 for East Asian - Australasian Flyway

3F G Tower, 175 Art center-daero, Yeonsu-gu, Incheon 22004 Republic of Korea

Tel: +82 32 458 6502; Fax: +82 32 458 6508

Email: wmbd@eaaflyway.net Website: <http://eaaflyway.net/>

About World Migratory Bird Day 2023

WMBD is an annual awareness-raising campaign highlighting the need for the conservation of migratory birds and their habitats. It has a global outreach and is an effective tool to help raise global awareness of the threats faced by migratory birds, their ecological importance, and the need for international cooperation to conserve them. In 2018, WMBD unified the planet's major migratory bird corridors, or flyways: the African-Eurasian flyway, the East Asian-Australasian flyway, and the Americas flyways. **WMBD is now celebrated twice a year, on the Second Saturday in May and in October. In 2023, WMBD will be held on 13 May and 14 October. This year, the theme is "Water: Sustaining Bird Life".** The EAAFP Secretariat encourages Partners to celebrate WMBD twice a year.

Introduction of EAAFP WMBD 2023 Small Grant

The Small Grant for 2023 [World Migratory Bird Day](#) (WMBD) has been established to provide financial support to [EAAFP Partners](#) and [EAAFP Task Forces and Working Groups](#) who plan to organize **public events and/or conservation action-oriented workshops** at national or local levels through participating in the World Migratory Bird Day. We strongly encourage EAAFP Partners and collaborators to make an application for any suitable event or development of WMBD materials in local language that aims to raise awareness on the need of conserving migratory waterbirds and the value of their habitats in East Asian – Australasian Flyway.

Eligibility Criteria

Applicants who plan to organize an event to celebrate World Migratory Bird Day 2023 need to **base in the EAAFP Partner countries**. In addition, EAAFP Partner countries included in the DAC list of ODA Recipients are our priority to support (If you are not sure, please see the [list of EAAFP Partners](#), and [DAC list of ODA Recipients](#)). If you are not the country focal point of EAAFP, please consult and plan with EAAFP focal point of your country before you apply.

Please note that this grant is to initiate a WMBD event, you can co-fund the event with other sources, but please indicate in the budget session. Applications with similar contents (location, target participants etc.) to previous years may not be accepted. We also encourage proposals to promote Flyway Network Sites for the WMBD activities.

Information of the application

Firstly, Applicants must meet the eligibility criteria set for funding assistance under EAAFP WMBD 2023 Small Grants Programme.

For your budget planning, please note a maximum of 1,000 USD will be allocated to each country. We recommend you submit the application form as early as possible.

The deadline for application is **31st August, 2023**. Please submit an application form to Communication Officer via email (Word or PDF document) at communication@eaaflyway.net and wmbd@eaaflyway.net.

After the Secretariat receives your application, the approval of successful proposals is made by the Secretariat. Applicants will hear of the result within two weeks after the deadline. Incomplete applications will not be accepted.

Successful applicants have a responsibility to help translate the World Migratory Bird Day materials into their own languages which will be shared on the World Migratory Bird Day website (<https://www.worldmigratorybirdday.org/>).

Date of Application: 18 August 2023

1. Information of applicant

	Name of applicant:	Chairunas Adha Putra
a.	Name of the organization:	Wild Heritage of Sumatra Foundation
b.	Applicant's position and division in the organization	Program Manager
c.	Type of the organization - Government/NGO/Private Sector/Other – specify):	Non-Government Organization
d.	Email:	[REDACTED]
e.	Postal address:	[REDACTED]
f.	Office phone numbers:	-
g.	Applicant's Mobile number:	+ [REDACTED]
h.	Website of organization:	https://whisindonesia.wordpress.com/
i.	Additional contact person	

Please tick if you permit to reveal your personal contact information on EAAFP website.

1.1 Information of supporter/Co-organizer

	Name of supporter:	
a.	Name of the organization:	
b.	Supporter's position and division in the organization	
c.	Type of the organization - Government/NGO/Private Sector/Other – specify):	
d.	Email:	
e.	Postal address:	
f.	Office phone numbers:	
g.	Supporter's Mobile number:	
h.	Website of organization:	
i.	Additional contact person	

Please tick if you permit to reveal your personal contact information on EAAFP website.

2. Proposed Event Plan and Expected Outcome (Please tick the relevant categories of your proposed event):

Public awareness activity – local and/or national	
Birdwatching - field trip	✓
Monitoring/survey – field trip	
Educational activity/lecture	✓
Festival	
Media Event	
Movie/video	✓
Photography and Art-drawing Contest	✓

2.1 Please specify your proposed event plan and expected outcomes

Title of event:	Increasing Public Awareness of Migratory Shorebird Conservation through a Photography and Coloring Contest on the East Coast of Batubara Regency, North Sumatra.
Date of event:	11 - 12 October 2023
Organizers:	WHIS Indonesia Foundation
Target participants:	Local communities and elementary students.
Expected number of participants:	We expected ; - Up to 100 local communities join the photography contest. - Up to 200 students will join the art-drawing activities.

Event objectives and plan (max. 500 words):

The Eastern Coast of North Sumatra stands as a significant region for migratory shorebirds within Indonesia. Over the period of 2018-2021, consistent monitoring efforts have revealed an annual presence of no less than 50,000 individual birds along this stretch. Notably, this area has also documented the presence of endangered migratory shorebirds species, including the Nordmann Greenshank, Great Knot, and Far-eastern Curlew and endangered resident waterbirds like the Milky Stork and Lesser Adjutant (Putra *et al.* 2021; WHIS database). Recognizing its ecological importance, Birdlife International (2001) designated it as a Key Biodiversity Area (KBAs). But, this information is not widely known by local people around the coast as well as people who live in the cities. So it is necessary to hold awareness campaigns on a regular basis.

Annual occasions such as WMBD provide an ideal opportunity for us to engage and collaborate collectively. This event, synchronized across numerous countries, represents a commitment to safeguard and protect migratory avian species on our planet, including those inhabiting the shores/mudflats of Batubara Regency.

The aims of the activities are;

1. Enhancing the awareness and knowledge of migratory shorebirds among both local communities and students in Batubara Regency regarding the significance of their locale in conserving migratory shorebirds.
2. Unveiling the inherent ecological richness of North Sumatra, particularly the Batubara Coastline, as a prime destination for ecotourism pursuits like birdwatching and wildlife photography.
3. Providing a platform for the exchange of insights among nature and photography enthusiasts, students, journalists, and the broader public.
4. Active involvement in World Migratory Bird Day 2023.

The activity will be held for two days, on 11 - 12 October 2023, as follows;

1. Photography contest focusing on migratory shorebirds, resident waterbirds, and wetland ecosystems. Additionally, a bird-watching activity will be organized for both the general public and photographers, and it will take place at Jono/Sejarah Beach.
2. Migratory shorebird coloring contest for elementary students in the Multipurpose Hall of PT. INALUM Tanjung Gading.

3. Photo exhibition of migratory shorebirds and wetland ecosystems in the Multipurpose Hall of PT. INALUM for the general public.
4. Short film screening "Migratory Shorebirds on the Eastern Coast of Batubara" and storytelling in the Multipurpose Hall of PT. INALUM Tanjung Gading.

The target participants for this activity comprise approximately 300 individuals, categorized as follows:

1. About 100 potential participants will engage in the photography contest, where they will submit their photos centered around the theme "Wetland and its Biodiversity." Following this, a meticulous selection process will identify 8 finalists who will be invited to join a captivating "one-day photo hunting" event at Jono Beach. This particular event will focus on the theme "Migratory Shorebirds, Waterbirds, and Wetland Ecosystems," and it will draw participation from a diverse group including the general public, photographers, journalists, from the Medan region.
2. Moreover, around 200 elementary students will actively partake in a series of engaging activities. These activities encompass a migratory shorebird coloring contest, short film screenings, and storytelling sessions.

3. Proposed Event Budget Plan:

Please specify budget plan of your proposed event

Total : 1000 USD

Note : The primary funding for the activities has been secured from PT. Inalum. However, We require additional funding to cover materials for the photo exhibition and necessary field support equipment.

Budget breakdown:

Items	Source of Fund (in USD)		
	EAAFP SGF	WHIS	PT. Inalum
Implementation cost needed			
Venue	-	-	In Kind
Transportation	65,36	131,00	In Kind
Accomodation	-	-	In Kind
Snacks and drinks for participants	-	-	588,20
Meals	-	-	261,45
Birdwatching stuff (Binocular and telescope)	-	In Kind	-
Coloring tools	-	-	170,00
Paper drawing	-	-	32,68
Banner (2 x 3 M) (2 pieces)	-	-	32,68
Big Banner (2.3 x 5 M) (2 pieces)	45,64	-	-
Print photos for exhibition (24 Photos)	235,31	-	-
Frame Photos for exhibition (24 Photos)	196,09	-	-
Field Long-shirt for committee (12 pieces)	274,53	-	-
Field cap and flyer. (12 pieces)	183,07		
Winner Price for Photo Contest (in total)	-	-	751,68
Winner Price for Coloring Contest (in total)	-	-	274,53
Honorarium			
Program lead (1 person)	-	196,00	148,38
Assistant Program (1 person)	-	-	228,77
Team Support at the event (5 person)	-	65,36	114,39
Master of Ceremony (1 person)	-	-	65,36
Story Teller (1 person)	-	-	65,36
Creative support (1 person)	-	-	228,77
Judge for Photo Contest (3 person)	-	-	294,14
Total overall Budget	1000,00	392,36	3256,39
Total Budget request from EAAFP WMBD Small Grant Fund	1000,00	-	-

4. Can you support translating the WMBD materials to your language?

Yes No

With support from EAAFP World Migratory Bird Day Small Grant Fund, you need to:

- Register your event(s) at the following websites as well for regional and global statistics of WMBD participation. It won't take you long to fill in the form as it is a simple process. Registration of your event(s) at Global WMBD website (<http://www.worldmigratorybirdday.org/register-your-event>)
- **Logos of WMBD and EAAFP have to be shown on all your printed and digital promotional materials.**
- **Reporting:** After any of your WMBD materials are published and your awareness event is held, it is required to provide an event report (see ANNEX I). The Report should include copies of any materials produced under the project. Published materials should be submitted with the report in both hard and electronic copy with suitable photographs illustrating the activities undertaken.

Important notes:

Report deadline:	No later than 28th October 2023 or within two weeks after the event(s).
Required information:	Name of organiser, target participants, programme, outcome summary and finance supporting documents
Submit to:	EAAFP Secretariat via email (Word or PDF document) at communication@eaaflyway.net and wmbd@eaaflyway.net .

ANNEX 1±

Standard format for the World Migratory Bird Day

Final Report Template

Section 1. EVENT INFORMATION (Compulsory)

1.1 Contact Information - Provide your contact information for this report

Full Name	Chairunas Adha Putra
Name of the organisation	WHIS Indonesia Foundation
Name(s) of the division and/or position	Project Coordinator
Type of the organisation - Government/NGO/Private Sector/Other	Non-profit based NGO
Email	████████████████████
Postal address	██████
Office phone numbers	-
(Your) Cell number (optional)	████████████████████
Fax (optional)	-
Website (optional)	https://whisindonesia.wordpress.com/
Additional contact person (optional)	-
Date of submission	24 October 2023

Please tick if you permit to reveal your personal contact information on EAAFP website.

1.2 Event title (Compulsory):

Increasing Public Awareness of Migratory Shorebird Conservation through a Photography and Coloring Contest on the East Coast of Batubara Regency, North Sumatra.

1.3 Event Location - Where did your event take place (Compulsory)?

Name of country	Indonesia
Name of city	Inderapura City
Name of event place/venue	Multipurpose Hall of PT. Inalum and Jono Beach

1.4 Event Type - Check the relevant categories below (Compulsory)

Public awareness activity – local and/or national	
Field Trip (e.g. Birdwatching)	✓
Monitoring/survey	
Educational activity/lecture	✓
Festival	
Media event (e.g. press release)	
Movie/video	✓

Photography and Art-drawing Contest	✓
-------------------------------------	---

1.5 Event Organiser - Who were organiser and/or sponsor for your event (**Compulsory**)?

The organizer of the event is WHIS Indonesia Foundation and the sponsor are PT. Inalum and EAAF Partnership WMBD Small Grant Fund 2023

1.6 Target Audience - Who were the participants for your event (**Compulsory**)?

Target Audience types	Number participated
School students, teachers or parents	196 students, 10 teachers
University students	-
Researchers, scientist	-
birdwatchers	-
Site managers for flyway site and wetlands	-
Decision or policy makers	-
Media	-
Photographer and local community	30 participants
Total number of Participants	236 participants

1.7 Outcome - What is the outcome from your event (**Compulsory**)?

1) The photo contest "Wetland and its Biodiversity" attracted approximately 91 participants from 17 provinces in Indonesia, who submitted entries showcasing the country's wetlands and their biodiversity. Seven finalists out of 91 participants were invited to Jono beach to take part in an on-the-spot photo contest. Information sourced from collaborative posts on Instagram of WHIS and PT. Inalum revealed that the contest garnered 698 "likes", with the winning finalists' video amassing 8,296 views. This substantial engagement indicates that at least 8,296 people were informed about the event, which aimed to promote awareness about Indonesia's wetland ecosystem and its diverse life forms.

2) At least 196 elementary school children and 10 elementary school teachers took part in various activities, including coloring contests, storytelling, and the screening of short films. During the event, all participants were educated about the significance of wetland ecosystems in the context of human life and the presence of migratory shorebirds along the Batubara coastline. The participants were drawn from different schools, with 53 children representing UPT. SD N 10 Sipare-pare, 21 from UPT. SD N 15 Sipare-pare, 27 from UPT. SD N 11 Sipare-pare, and 95 from SDIT Al-Ihya Tanjung Gading.

3) Approximately 20-25 participants, comprising photo contest contestants, event organizers, and PT. Inalum staff, were informed about ecotourism, particularly bird watching, which holds substantial developmental promise in the eastern coast of Batubara Regency. This informative session was conducted by Fion Cheung and Nemo from WWF Hong Kong, who have effectively established ecotourism initiatives to bolster the local community's alternative economy and safeguard wetland ecosystems within Hong Kong's Mai Po Nature Reserve.

1.8 Any additional comment? (Optional)

Section 2. EVENT PROGRAMME (**Compulsory**)

On October 12, 2023, we have two simultaneous schedules. The photo contest will take place at Jono Beach, Batubara Regency, while the coloring contest will be held at the Multipurpose Hall of PT. Inalum, as follows ;

Link for the short video for photo contest activity ;

<https://www.youtube.com/watch?v=qCsyGeze33o>

Photo contest schedule.

Indonesian Time (WIB)	Activities
Wednesday/ 11 October 2023	
15.00-17.00	The finalists' travel from Medan to the Tanjung Gading housing area.
17.00-19.30	Meals and take a rest.
19.30-20.30	Welcoming speech, technical meeting by committee
21.00	Break (night)
Thursday/12 October 2023	
05.30-06.00	The finalists' travel from Tanjung Gading housing area to Jono Beach.
06.00-11.00	Photo hunt "on the spot" contest.
11.00-13.30	The finalists's back to Tanjung Gading Housing area and then select their three best photos to be judge
13.30-14.00	All photos collected and judged
14.00-14.15	Participants attended the photo exhibition of wetlands and its biodiversity at Multipurpose Hall of PT. Inalum
14.15-15.00	Participants attend an ecotourism discussion by WWF Hong Kong
15.00-15.30	Winner announcement
16.00	The finalists' back to Medan.

Coloring contest, story telling and short film screening schedule.

Indonesian Time (WIB)	Duration (minutes)	Activities
08.00 – 08.30	30	Participant registration.
08.30 – 09.00	10	Welcoming speech by Master of Ceremony.
	5	Opeening speech by committee (WHIS) Desy Hikmatullah.
	10	Opeening speech by PT Inalum Ali Hasian Harahap.
	5	Souvenirs and Photo Session.
09.00 – 09.45	45	<i>Storytelling</i> by Abu Mansyur.

09.45 – 10.00	15	Briefing on Coloring Contest.
10.00 – 11.00	60	Coloring contest.
11.00 – 11.10	10	Collecting the results and Coffee Break.
11.10 – 11.30	20	Coloring Contest Judging.
		Short film screening.
		Quis.
11.30 – 12.00	10	Announcement of Coloring Contest
	10	Presentation of Prizes to winners
	5	Closing.
	5	Group Photo.
12.00 -12.30	30	Lunch and back to home.

Section 3. SHORT SUMMARY REPORT (Compulsory)

The Eastern coast of Batubara District is one of the important sites for congregations of migratory shorebirds in Northern Sumatra. We recorded several globally threatened birds such as Nordmann's Greenshank *Tringa guttifer*, Great Knot *Calidris tenuirostris*, Far-Eastern Curlew *Numenius madagascariensis* and Milky Stork *Mycteria cinerea* on the intertidal mudflat. Several sites are important as wintering habitats for more than 1% EAAF population, i.e Nordmann's Greenshank, **Picture 1**. (Putra *et al.* 2021), Great Knot, Asian Dowitcher *Limnodromus semipalmatus*, Black-tailed Godwit *Limosa limosa*, Eurasian Curlew *Numenius arquata*, Common Redshank *Tringa totanus* and Lesser Sandplover *Charadrius mongolus* (Putra & Hikmatullah 2019), Grey-headed Lapwing (Putra & Hikmatullah 2020). In addition, the highest one site counted of 167 resident endangered Milky Stork (Putra & Hikmatullah 2019) and first sighting of near threatened Eurasian Oystercatcher *Haematopus ostralegus* in Indonesia (Putra *et al.* 2018).

Picture 1. The Eastern Coast of Batubara District is the one of important site for wintering Nordmann's Greenshank in Sumatra. The link of the paper can download here ; <https://www.researchgate.net/publication/353858420> **North Sumatra is an internationally significant region for non-breeding Nordmann's Greenshanks *Tringa guttifer*.**

The photo contest is designed to encourage workers and artists (photographers) to participate by submitting their finest work centered around a predetermined theme: "Wetland and its biodiversity." This initiative seeks to showcase the natural allure of

mangrove forests, landscapes, the rich biodiversity, particularly migratory shorebirds, and the profound connections between the community and the coastal environment of the District. During the finalist selection phase, prospective finalists are required to submit their photos for consideration via social media (specifically, Instagram, using the hashtag *indonesiawmbd2023*). The submitted photo entries will be evaluated based on how well they capture the essence of the theme "Wetland and its biodiversity" in the areas where photography is unrestricted, within the administrative boundaries of the Republic of Indonesia.

Over the course of two months, from August to September 2023, the committee received a total of approximately 250 photo submissions from 91 participants, spanning 17 provinces in Indonesia. Following this phase, the committee, in collaboration with a panel of judges, will meticulously curate a selection of eight finalists who will advance to the on-site photo contest. Evaluation criteria include the alignment of the submitted photos with the contest theme, the originality of ideas and presentation, technical proficiency in photography, and the quality of the accompanying captions. Subsequently, the eight chosen finalists have been invited to participate in the ultimate stage of the photo contest, set to unfold at Jono Beach on 12 October 2023.

The photo contest commences in the morning, precisely from 06:00 to 11:00 WIB. Following this, finalist participants are expected to submit three (3) photo works, each falling under distinct categories: biodiversity, human interest, and landscape. The evaluation of the contest entries was conducted through online means, taking place between 12:30 and 14:00 WIB. During this phase, a panel of three esteemed jury members, namely Andi Lubis, Suriono Selamat, and Harlim, provided their assessments for each of the finalists. The grand announcement of the winner took place at approximately 15:00 WIB. (Picture 2).

Picture 2. The group photo of photography contest participants and committee at Multipurposes Hall of PT. Inalum.

On 12 October 2023, a series of activities, including a coloring contest, storytelling sessions, and short film screenings, will take place from 08:00 to 13:00 WIB at the Multipurpose Hall of PT. Inalum. At least 196 elementary school children and 10 elementary school teachers

took part in various activities (**Picture 3**). The event commenced with introductory remarks from Mrs. Desy Hikmatullah (representing WHIS Indonesia), Mrs. Desy emphasized that the purpose of these activities extended beyond World Migratory Bird Day celebration, aiming to enhance the knowledge of both school students and local community regarding migratory shorebirds. Subsequently, Mr. Ali Hasian Harahap, a staff member of PT. Inalum, delivered opening remarks, encouraging school students to play an active role in the conservation of migratory shorebirds along the Batubara coastline.

Picture 3. The group photo of coloring contest, story telling and short film screening participants and committee at Multipurpose Hall of PT. Inalum.

Following that, the event unfolded with a captivating storytelling session led by Kak Abu Mansyur, centered around the theme of bird migration. Subsequently, an engaging coloring contest was held, featuring pictures provided by the committee. Moreover, the committee distributed gifts to participants during the quiz session and recognized the outstanding efforts of 23 participants. The coloring contest award was given to Elyka Herna (SD N 10) as the first-place winner, followed by Keishy Anggraini (SD N 11) in second place, and Jihan Asha Almira (SD N 10) securing the third-place position.

Following the conclusion of the coloring contest, the program seamlessly transitioned into a screening of a short film, spanning approximately 5 to 10 minutes, dedicated to migratory birds. This film narrates the journey of a specific migratory bird known as the "Great Knot" or "Didi", detailing its migratory route from the breeding grounds to its winter stopover location. The film sheds light on the various potential threats these birds encounter along their migratory path and underscores the imperative need for collaborative endeavors among researchers and bird enthusiasts in conservation and protection efforts. The screening of this film resonated strongly with the enthusiasm of elementary school children in attendance.

The photo exhibition highlighting wetland ecosystems and their rich biodiversity serves a multifaceted purpose. Its primary goals encompass enhancing environmental consciousness, imparting education to the public, and advocating for the preservation of nature. In light of the prevailing challenges faced by wetland ecosystems and their

biodiversity, including climate change, diminishing biodiversity, and environmental quality threats, this exhibition assumes paramount importance. Furthermore, it aspires to impart knowledge about ecology and wildlife, emphasizing the integral role played by wetland ecosystems within the broader global ecological framework. The ultimate aspiration of this exhibition is to utilize the showcased images and information as catalysts, inspiring individuals to grasp the delicate equilibrium of nature and fostering a heightened sense of the significance of safeguarding these vital ecosystems.

The photo exhibition took place within the Multipurpose Hall of PT. Inalum Tanjung Gading, sharing the same space as the coloring contest. It was attended by a diverse audience, including the finalists of the photo contest, elementary school children who participated in the coloring contest, their teachers, and visitors to the 2023 WMBD activities (**Picture 4**). This photo exhibition plays a crucial role in its capacity to introduce various wildlife, inspire conservation initiatives, and enhance the appreciation of the Earth's natural beauty.

Picture 4. The participants viewed a photo exhibition at Multipurpose Hall of PT. Inalum.

Through a captivating display of breathtaking photographs and compelling narratives, the exhibition has the potential to transform the attitudes and behaviors of its visitors toward the environment. Additionally, it acts as a collaborative platform for photographers and environmental advocates. The exhibition's ultimate aspiration is to stimulate tangible actions in support of nature conservation, whether that involves endorsing conservation organizations or engaging in voluntary environmental preservation endeavors. In summary, the wildlife and wetland ecosystems photo exhibition serves as a powerful educational, inspirational, and mobilizing force, rallying the public in the collective endeavor to preserve nature and embrace the remarkable biodiversity it harbors. The photos showcased are the work of the WHIS Foundation team, captured during bird research and survey activities spanning from 2010 to 2023.

Section 4. EXPENDITURE REPORT (Compulsory)

Expense Items	USD
A) Funding from EAAFP Small Grant (1000,00 USD)
